# **Times Noblest** Offspring

Roundtable is composed of a group of twelve seniors whom the faculty has recognized for their outstanding achievement in scholastic and extracurricular activities. The Excalibur Staff honors these students.

#### MARNITA BELL

If deeds are measured by action, Marnita Bell's tenure at Kimball was distinguished and busy. Her undertakings were characterized by exceptional organizational ability and exemplary individual achievement. Her co-direction of the highly successful Kimball Science Symposium provided the direction and expertise needed to make such an enterprise work. Marnita's term as president of the Science Club was a model of planning and responsibility. Her determination, dependability, and achievement earned Marnita a scholar's credentials. She has consistently ranked with the top members of the Senior Class in academics.

Her support of all Activities and traditions at Kimball gained for Marnita the enviable reputation of being a student who cared about everyone.

#### PAUL CARMONA

Paul Carmona was an imaginative and all-around leader throughout his years at Kimball. His presence was felt in almost all the major organizations at school. In addition to his responsibilities as Varsity cheerleader, Paul found time to assume the duties of student director of the New Tymes singers. He also served as the president of the Chorale and founded the Juggling Club. His memorable performances in such musicals as *Carnival* were complemented by outstanding participation in the Science Symposium.

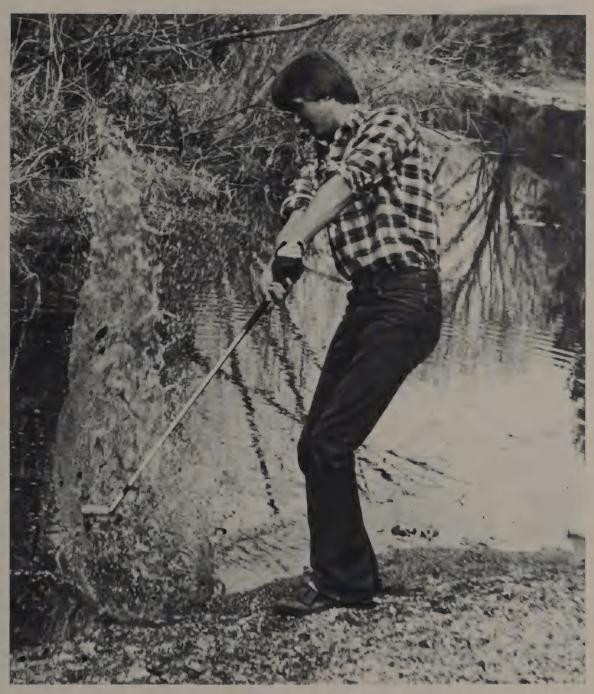

For his exceptional and diverse qualities, the 1981 Senior Class voted Paul the Best All-Around Senior boy.

## VERONICA CARMONA

Firm and friendly discipline exemplified Veronica Carmona's leadership of the Trouba-dears. Her captaincy never led Veronica to be less than one of the dedicated and hardworking members of a proud unit. Her leadership talents were directed toward a large number of activities and Veronica never refused a chance to serve as well. These qualities were known to all since Veronica's fellow classmates elected her as the Best All-Around Senior girl.

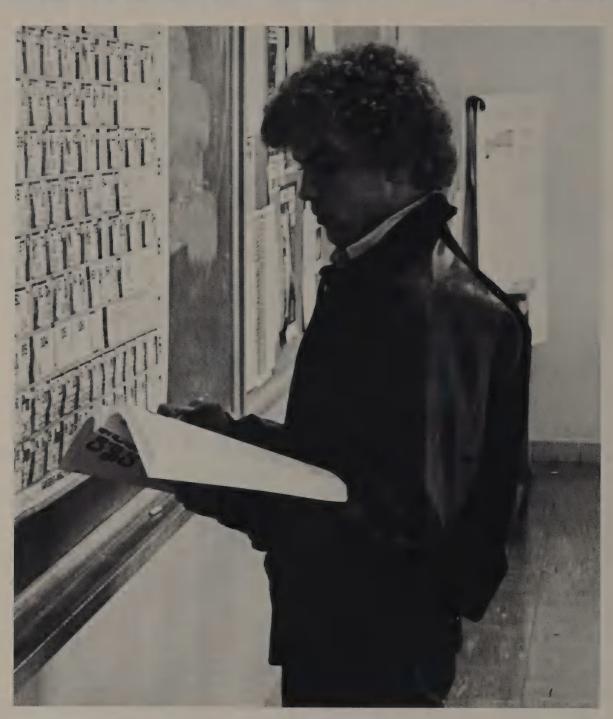

Musical talent was one of Veronica's multiple assets. She sang in the Concert Choir and won a major lead in Kimball's production of *Carnival*. Her vivacity and charm blended to produce a student with star quality and exceptional intelligence.

#### **GUY CHANDLER**

Guy Chandler undeniably made his presence felt in the halls of Kimball through a friendly and inspiring personality. When one noted his impressive list of senior credits — New Tymes, Chorale, musicals, athletics, and scholarship — one quality was not listed. Guy's positive attitude about life will always stand as an example to his friends and admirers. As president of the Fellowship of Christian Athletes, Guy's easy charm and humanity blended to bring to everyone a sense of life as a special adventure.

Service was at the core of Guy's abilities as witnessed by his dedication and willingness to work hard as the vice-president of the Senior Class.

## RICH HELFREY

Rich Helfrey's range of activities covered just about every imaginable facet of school lite. His participation in athletics included an outstanding performance as a member of the soccer team as well as performing the demanding duties of football trainer. Rich's quick wit and creativity earned him immediate respect as a member of Concert Choir. He managed to land a major part in the musical *Carnival*. Rich's ability to lead others was observed during his term as president of the Kimball Student Council. Through it all he amassed academic honors second to none.

Due to his natural ability, sense of humor, and even-temperament, Rich was voted the Most Popular boy in the senior class.

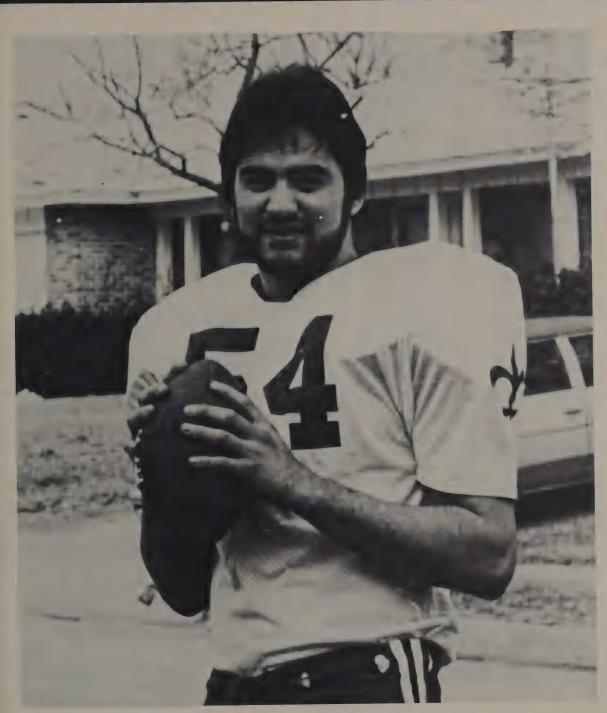

## TINA MATHIS

School spirit is one of the most important motivators available for inspiring students to achieve their best. Tina Mathis eagerly worked to ignite the spirit critical to the success of Kimball athletics and activities. Her aggressive and enthusiastic personality made Tina an important member of both the Varsity and Junior Varsity Cheerleading squads. Besides maintaining a high average in her classwork, Tina also found time to participate in the girl's athletic program. She consistently contributed to the success of all Knight teams with intensity and unselfishness.

## TROY MEDINA

Troy Medina's years as a Knight were marked by his eager, helpful and involved attitude. As a Varsity cheerleader, Troy displayed only one aspect of his varied talents. He entertained all the students lucky enough to have a ticket for *Carnival*, and in addition he played another role besides his lead. Troy's leadership endowment was displayed in his active roles on the student Council Executive Committee and the Senior Steering Committee. Finally, add Concert Choir to the list and the Roundtable seats a senior who typified service and individual achievement.

#### RALPH PARTIDA

When people searched for the ideal student-athlete, Ralph Partida immediately came to mind. Scholarship was always a priority in his Kimball career. Membership in the National Honor Society was the hallmark of his accomplishments in academics.

In football Ralph's list of honors is equally impressive. He earned All-District honors as both an offensive and defensive performer and nabbed the 12-AAAAA Defensive Player of the Year title as well. More recognition followed when the media selected him to be a member of the All-Greater Dallas defensive team. Additionally he placed on the All-Metro squad as a center.

Through it all his coaches and teachers found Ralph ever-willing to take direction in order to improve his already outstanding performance.

# ANNE RICKABAUGH

In days when student literary achievement is suspect, Anne Rickabaugh stood out as a sensitive, literate observer of the scene at Kimball High School. Perceptive and forceful, Anne displayed exceptional organizational skills to complement her insight. Whether it was stylish articles, editorials, or creative photography, she produced work which contained clarity and shape. Anne always left her readers wanting more. As the Editor-in-Chief of Excalibur, she consolidated her journalistic skills in order to produce an annual that will be read and re-read for many years to come.

Far from being just a writer, Anne took time out from student publications to participate in Concert Choir where she became president of the Choraliers. Moreover, she

compiled an impressive record in a challenging course of study.

## YOLANDA SANDS

The Knights of the first Roundtable earned their position through years of arduous mental and physical training. In 1981, Yolanda Sands was an ideal example of the determination and spirit that is required to attain such distinction. For four years, Yolanda toiled to become one of the key players in the Volleyball's team's drive to the district championship. She never stopped improving and her contribution was indispensable to the team's success.

Yolanda was a talented member of the Marching Band and she maintained a GPA that kept her consistently among the top competitors for academic honors. Her name will always be associated with the desire to be the best.

## MICHAEL WEISER

Talent is often a word applied indiscriminately when bestowing honors. Michael Weiser, however, represented the best that such a description offers. Appearances in three musicals gave testament to his considerable skill as an entertainer. He played major leads in such challenging productions as *Guys and Dolls* and *Carnival*. Vocally, Michael excelled in the New Tymes singers and the Chorale. He was a member of Thespians and Readers' Theater and still spared time to practice for the Juggling Club. His natural creativity and enthusiasm in the pursuit of learning led Michael to rank among the top academic honorees of the Class of '81.

#### **BEVERLY WILLIAMS**

Fellow students and faculty alike frequently cited perseverance and intensity as the two outstanding traits of Beverly Williams. Accurate as their observations were, she supplemented these qualities with ability and insight. The sum of these characteristics produced a dynamic individual who was dedicated to school and community. As President of the Senior Class, Beverly offered enthusiasm and originality to the activities and traditions that are so meaningful to seniors.

Her dedication and hard work in the cause of brotherhood touched many lives and led fellow students to share a sense of unity based on mutual respect and affection. Despite constant involvement in school events, Beverly managed to accumulate an impressive academic record.

### TIME

### A beginning leading towards the end ...

You could say that's what the annual staff started with. I thought of a theme (time) over the summer. Then we got together and discussed it, thought about it, and then finally started writing it down. So there we were — at the beginning - but that was hours and hours of hard work ago. Some of those long hours consisted of writing copy and rewriting copy, planning pages and cropping pictures, typing and more typing. There was more to it than that, but I'm sure that the people who worked on it will remember everything for a long time. Of course, I can't leave out the photographers who took and retook the pictures and then developed, printed and finally reprinted them. Everyone was busy in some way or another. Even between deadlines we were busy getting our minds unscrambled. Well, after the fourth deadline the book was basically finished. For three months we waited anxiously to see the finished product. So it's the end now — only to be another beginning next year.

Though we Remain victims Of Time Through all Eternity, There are Moments we Feel free; instances when Being a slave to Time is the Last thought in our minds.

#### How It Ends . . . And Begins

So this is how it ends The nervous "See you around sometime," The half-hearted last hug and hand-shake.

There is a feeling of betrayal,
The awareness that I offered too much, overinvested myself,
Gave more than I took, or did I?
The realization that a big part of me
Walked out the door when we parted.
After a time, the memories will pass
The morning when I will awake,
And you will not cross my mind.

There is the promise of the future, though,
The feeling of a fresh start,
The awareness that I have something special to give someone else,
The realization that there is enough left of me
To begin to give again — without losing myself.
So this is how it ends — and begins.
